Welcome to the
Marshall County
Electric Municipal Aggregation Program

February 16, 2024

Hi Marshall County Residents,

We have good news for you. After a competitive selection process, your community has chosen Dynergy as its supplier for its electric municipal aggregation program through April 2025. That means Marshall County, IL negotiated a price-protected electricity rate on your behalf, and you don't have to worry about fluctuating rates. You will automatically be enrolled in the program as a Marshall County resident – and there are no switching or early termination fees.

Here Is What You Can Expect

The program is simple:

- You will receive a competitive, fixed rate of **\$0.06795 per kWh guaranteed until April 2025**.
- Your current billing method will not change. You will continue to receive one monthly invoice from ComEd, your local utility. You will notice the line item under the supply portion will list Dynergy along with this negotiated rate on your invoice following successful enrollment in the program.

Your Options as a Customer

If you choose not to participate in this program, please contact Dynergy by returning the enclosed opt out card or calling (844) 351-7691 **by March 8, 2024**, regardless of if you've opted out of programs in the past. To learn more about the program, please review the enclosed Terms and Conditions or visit our website at www.Dynergy.com.

You also have the option to purchase electricity from a Retail Electric Supplier, or from ComEd without penalty pursuant to Section 16-103 of the Public Utilities Act. Information can be found at www.PluginIllinois.org and www.ComEd.com. You may request from the Illinois Power Agency, without charge, a list of all supply options available to you in a format that allows comparison of prices and products.

Dynergy is an independent seller of power and energy service and is certified as a Retail Electric Supplier by the Illinois Commerce Commission (ICC Docket No. 14-0336).

We look forward to serving you!

Sincerely,
Marshall County
